

【Israel Business introduction of startup company】 (Video conference) ～Get to know the deep tech world of Israel～

Israel, an innovation powerhouse called Silicon Valley in the Middle East. Israel is growing as a leader in areas called "Deep Tech" such as AI (artificial intelligence), IoT (Internet of Things), Autonomous driving, and Cybersecurity. Now, Israeli startups are creating innovative technology and gaining international reputation. This time, we will have a video conference with four promising Israeli start-up companies to introduce their businesses.

Israeli startups with promising technology are attracting leading companies and investors from around the world. This time, We will invite only 10 customers to this video conference. Please take a look at Israel's "Deep Tech" world. If you are interested in Israeli companies, take this opportunity to join us. We look forward to your participation.
