

# 【Introduction to Start-up Businesses in Israel】 (Video conference) ～Understanding the World of Israeli Deep Tech～

Israel is an innovation powerhouse referred to as the Silicon Valley of the Middle East. It is growing as the technological leader in the areas of “Deep Tech” which includes technologies such as AI (artificial intelligence), IoT (Internet of Things), autonomous driving, and cybersecurity. Today, having created various revolutionary technologies, Israeli start-ups have obtained high acclaim internationally. On this occasion, we will conduct a video conference with four promising Israeli start-up companies which will introduce their businesses. Such promising Israeli start-ups are typically exclusive to leading companies and investors from around the world. However, this time we are specially inviting up to 10 customers to attend this event. If you have interest in Israeli companies, please join us for this opportunity. We look forward to your participation.
